PROFILE

I am a dedicated and enthusiastic professional with accumulated experience in conducting First Aid training and conducting emergency procedures. Being proactive and adept with emergency situations, I exhibit personal accountability on key roles within medical services which enables me to pursue a challenging position in an organisation where I can bring out the best and further my skills and proficiency in providing first aid as well as advanced life support. I am focused in supporting complex operations, resolving challenging issues, and performing tasks that require high level of attention whilst adhering to applicable policies and standards. My objective for professional advancement is continuous development of competencies, providing for the best interest of any organisation I work for.

SKILLS AND ATTRIBUTES

- Possesses wide range of experience in working within pre-hospital emergency services in urban and remote locations for public and private service
- Delivers high quality Advance Life Support, CPR and Invasive procedures
- Wide experience in treating severe trauma, MVA, Gunshot wounds, Amputations, etc
- Proficient in conducting aero-medical evacuations, retrievals and search and rescue
- Ability to provide training and assessment on staff and corporate clients from first aid to Certificate IV level health care
- Coherent team spirit with proven ability to work within a multi-cultural environment; equally effective as a solid individual performing self-managed tasks
- Proven capacity to work long shifts and irregular hours with ability to work under pressure in a hostile location
- Exceptional listener and communicator who effectively conveys information verbally and in writing
- Maintains a safe, secure, and health work environment by following and enforcing standards and procedures complying with legal regulations
